

# Vino

Developing our concept, we wanted to stand out through our selection of wines. For this reason, we brought a new kind of Italian wine to San Diego: natural, 100% organic, biodynamic wines. Biodynamics, the oldest green agriculture movement, is a winemaking method developed by the philosopher Rudolf Steiner.

# Birra

At **Ambrogio15**, we are proud to serve the **Best of the Italian Craft Beer World** by partnering with the best brewery, **BALADIN** from Piemonte.

**Beer, Earth, Energy, Ideas:** Baladin's founder Teo wants to share a common philosophy through his beers, and those are the four main themes on which this path develops.

**"From the Earth, with our Hands" is Baladin's motto.**

Like our Beers, our soft drinks are sourced from Baladin (Piedmont) and aim to recreate tastes and flavors that were once traditional, but with a touch of innovation.

Free from colorings or preservatives, these special drinks are devoted to those who were children, and to new generations alike
